How to Use the 12-Channel AudioFetch System

Step 1: Connect to Rhema-Public WiFi

1. Open your phone or tablet's **WiFi settings.**
2. Find **Rhema-Public** in the list of networks and tap on it.
3. Wait a few seconds until it says you're connected.

Step 2: Download & or Open the AudioFetch App

1. If you don't have the app:
   o Go to the **App Store** (for iPhones) or **Google Play Store** (for Android phones).
   o Search for **AudioFetch** and download it.
2. Open the **AudioFetch** app once it's installed.

Step 3: Choose Your Channel

1. When the app opens, it will automatically show you the available channels.
2. Find the channel for your language or hearing support:
   o **EXAMPLE Channel 1**: English (for hearing support).
   o Check the list in the app for other languages (Channels 2-12).
3. Tap the channel you want to listen to.

Step 4: Plug in or connect your Bluetooth Your Headphones

- Connect your headphones to your phone or tablet so you can hear clearly.

Step 5: Adjust the Volume

- Use the volume buttons on your device to set it to a comfortable level.

Step 6: Enjoy the Service!

- Now you're ready to listen to the service in your language or with English hearing support.
